

MEDICO-PARLIAMENTARY.

HOUSE OF COMMONS.—Friday, February 15th.

THE CATTLE-DISEASE.—Mr. C. S. Read moved for the appointment of a select committee to inquire into the operation of the Contagious Diseases (Animals) Act (1869), the Cattle Diseases Act of Ireland, and the constitution of the Veterinary Departments of Great Britain and Ireland. Mr. Forster assented on behalf of the Government, and the motion was agreed to.

Monday, February 18th.

SANITARY LEGISLATION.—Sir C. Adderley, in answer to Mr. Raikes, said he hoped that those who were members of the Sanitary Commission would be permitted to reintroduce their measure relating to the public health this session, with the view of collecting in one Bill such powers and duties of the local authorities throughout the kingdom as were now scattered over 19 or 20 Acts of Parliament. He also expected, from what had fallen from the Prime Minister the other day, that they would have the assistance of the Government in dealing with the subject.

Thursday, February 13th.

SANITARY ACTS.—Mr. Stansfeld, replying to Sir C. Adderley, stated that he should be glad to introduce a measure this session amending the Sanitary Acts imposing duties on local authorities, but whether he should be able to do so depended on the progress of business.

COMPULSORY REGISTRATION OF BIRTHS.—In reply to a question from Dr. L. Playfair, Mr. Stansfeld said that a measure for the compulsory registration of births and for the better verification of the causes of death had been prepared, and would, he hoped, be introduced in a few days.

BASTARDY LAWS AMENDMENT BILL.—This Bill was read a second time.

MEDICAL NEWS.
